

Safety and cleaning instructions for the LIINI®breast pump

Dear Customer,

Thank you for choosing our baby carrier. We attach great importance to your safety and the well-being of your family.

To ensure that you carry your baby safely, it is important to carefully follow the safety and carrying instructions below. Improper use can pose serious risks!

Manual / Operating instructions

We deliberately do not provide printed operating instructions, thereby saving several tonnes of paper every year. At the same time, we can update our electronic operating instructions at any time so that you always have the latest version to hand.

Even though many functions can be operated intuitively, please take **five minutes to read through the instructions**. It is important to use the product in accordance with the operating instructions so that you can enjoy it for a long time, everything works safely and unnecessary annoyance is avoided.

You can find the **operating instructions** via the following **QR code** (scan with your smartphone):

General safety instructions (GPSR)

Carrying your baby incorrectly can lead to serious accidents and injuries and poses **serious safety risks**.

Please observe the following instructions carefully:

- Read the instruction manual thoroughly before first use and keep it in a safe place.
- **Check** the baby carrier **for damage** (seams, straps, buckles, fabric) before each use. Do not use if defective.
- The carrier is not a toy and may only be put on and used by adults.
- Only carry one child at a time.
- Only use within the specified **weight limits** (as stated in the manual).
- Before carrying, ensure that all buckles are correctly fastened and adjust the straps so that the baby is close to your body (not "hanging").
- Fasten the hip belt tightly and securely; position the shoulder straps/chest strap correctly.
- Regularly adjust the width/fit to the baby's growth (according to the manual).
- **Risk of falling:** always bend your knees when bending down; avoid sudden movements.
- **The airways must always be clear:** the nose and mouth must never be covered by fabric.
- Check the position of the head/chin: the chin must not be pressed against the chest for long periods (restricted breathing).
- Carry your baby in such a way that you can see them at all times and check their breathing.
- Do not use additional pillows, inserts or blankets in the head area unless expressly intended for this purpose.
- **Never** carry your baby **lying down** in the carrier (e.g. on the sofa/bed).
- Seek medical advice before use for premature babies or babies with health restrictions.
- The baby **must not be breastfed or fed while being carried** in the baby carrier.
- Do not engage in sporting or dangerous activities while wearing the carrier (e.g. jogging, cycling, skiing).
- Be careful with heat sources (stove, hot drinks, open fire) – risk of burns.
- Watch out for overheating/hypothermia: dress your baby appropriately and check their temperature regularly.
- Only clean according to the care instructions; incorrect cleaning can weaken the material.
- Allow to dry completely after cleaning; do not dry with direct heat.
- Store in a dry, clean place out of reach of children.
